Cairo, Egypt

### ABOUT ME

I'm a passionate Mobile Penetration Tester skilled in Android & iOS app security, specializing in static/dynamic analysis, runtime instrumentation, and network testing to uncover real-world vulnerabilities and deliver actionable remediation for secure, resilient mobile applications.

### EDUCATION

Benha University | 2023-2027

#### B.Sc. in Cyber Security | Faculty of Computer Science and Artificial Intelligence

Focused on network security, cryptography, penetration testing, and digital forensics, building a solid foundation in ethical hacking and secure systems.

### WORK EXPERIENCE

Mobile Penetration Tester (Freelance) – 2022–Present

#### PenTester

Android & iOS security testing: static/dynamic analysis, reverse engineering, Frida, MobSF, Burp. Deliver concise vulnerability reports, PoCs, and remediation aligned with OWASP Mobile Top 10.

Vodafone (iSON Xperience) – 15/05/2025 – 15/08/2025

#### Customer Service Representative

Frontline technical support and issue resolution; sharpened communication, customer triage, SLA adherence, and teamwork in a high-volume environment.

Google Developer Groups (GDG) – 2024–2025

#### Cybersecurity Core Member & Instructor

Delivered training sessions and hands-on workshops covering ethical hacking, penetration testing, and digital forensics. Conducted live demos on tools and attack simulations to enhance community learning.

Google Developer Groups (GDG) - 2023

#### Cybersecurity BootCamp

Completed hands-on training in web & mobile pentesting, digital forensics, and CTFs, enhancing real-world exploitation and reporting skills.

### SKILLS

- Penetration Testing (Web, Mobile)
- Digital Forensics
- Problem-Solving
- Vulnerability Assessment
- Secure Coding
- Critical Thinking

### COURSES

- CS50x
- eJPT
- OWASP TOP 10
- Linux+
- eMAPT
- CCNA
- Google Cybersecurity
- Red Hat System Administration I

### LANGUAGES

English - Intermediate (B2)

German - Beginner

Arabic - Native
